**The ARCHOS 605 WiFi displays the most impressive combination of features in a portable video player**

The ARCHOS 605 WiFi lets you:

• Play all your digital entertainment: movies, TV shows, photos and music
• Record[1] your favorite TV shows
• Stream and watch videos from your PC
• Download movies and music directly on your PMP using the ARCHOS Content Portal
• Enjoy the new high resolution 4.3" touch screen (800x480 pixels)
• Internet enabled[2] to surf the Web, share content, and access Web video sites (eg DailyMotion)
• Customize your ARCHOS with great accessories and plug-ins
• View, zoom photos and make slide shows with music and transition effects, for viewing on the PMP or TV
• Listen to all your favorite music in more formats than any other player
• 30GB[*] to store up to 40 movies[3], 300,000 photos[3] or 15,000 songs[3]

[*]1 GB = 1 billion bytes, formatted capacity is less
[1]With the optional DVR Station, DVR Travel Adapter or Mini Dock
[2]With the downloadable optional Web browser plug-in (Opera® browser/Adobe Flash®) on the web site or directly on the ARCHOS Content Portal on the device
[3]On average; based on 3.5 mins/song & 64 kbits/s WMA, on 1000 kbits/s MPEG-4 audio/video encoding and 1h30/movie (for near DVD Quality), on JPEG, VGA

## Most Advanced PMP

Featuring the highest quality screen resolution, highest quality video, touch screen, WiFi capabilities for streaming content to the device or a TV, the ARCHOS 605 WiFi is the top product in the line-up for flexibility, portability, features and price.

### Touch screen

The ARCHOS 605 WiFi features the highest resolution screen (800 X 480) and highest quality screen in a PMP. Use the touch screen to easily operate the device with your finger or stylus.

### Personalize your ARCHOS

Make it yours: personalize your ARCHOS 605 WiFi to fit your unique lifestyle. Abundant plug-ins and accessories are available to customize your device to work the way you do: Go online for full Web surfing, video your friends and family in action, record your favorite TV shows and movies, and share your photos.

### WiFi

Download content wirelessly and directly to your ARCHOS 605 WiFi via the ARCHOS Content Portal and our partners' online stores. You can also stream movies, TV shows and music that are stored on your computer. Your device is Internet ready! With the optional Web browser plug-in, you can surf the Web and enjoy videos from online videos sites like DailyMotion and YouTube.

### Your movies, your videos

-        Store        and        play        up        to        40        movies[1]
- Play the most popular video format: MPEG-4, WMV, protected WMV, MPEG-2[*], VOB[*], H.264[*]
(*with                        optional                        plug-ins)
- Play the movies you shot on your camcorder

### Your photos

- Transfer your photos from a PC or most mass storage devices via the USB 2.0 high speed interface
-        Store        and        view        up        to        300,000        photos[1]        (JPEG,        PNG        and        BMP        formats)
-        Display        slideshows        with        music        and        transition        effect
- Manage your files and folders directly on the device for a better mobility

### Your TV

- Record your favorite TV shows or series directly on your ARCHOS 605 WiFi with the optional DVR Station                        Gen                        5
-        Easy        programming        with        the        TV        Program        Guide
- Record the most video sources such as satellite/cable box, VCR, DVD player in MPEG-4 format

## Your music

- Store and listen up to 15,000 songs[1]
Play the most popular music files such as MP3, WAV, WMA and protected WMA
- Easily organize songs with the enhanced ARCLibrary
- Customize your view by artist, album, type of music, title and create your playlist on the go

## Easy navigation

Through the home WiFi connection, you can enjoy the entire shared digital media library of your home PC in your living room, not just in your office.

[1]On average; based on 3.5 mins/song & 64 kbits/s WMA, on 1000 kbits/s MPEG-4 audio/video encoding and 1h30/movie (for near DVD Quality), on JPEG, VGA
